Curriculum Match Factor

Whatever your
course cites is
always clearly
in our sights.

Introducing Curriculum Match Factor. A new way of thinking about how our content matches your curriculum. It reflects a unique ProQuest reality: ABI/INFORM provides the content that matches the curriculum (and the research focus) at business schools around the world. We identify and incorporate the most-respected journals and the most-cited articles from sources worldwide, to match the most-used textbooks in the most-taught business courses. Now, when professors or students look for information, they'll find it. ABI/INFORM. It's what you're teaching... because we planned it that way.

Curriculum Match Factor

Now, finding
a relevant article
is like finding
a needle in
a needlestack.

Sure, ABI/INFORM offers thousands of relevant sources. But don't let the numbers worry you. We'll take you straight to the one, or three, or 12 *most* relevant articles, fast, with ProQuest Smart Search. This new feature combines our superior indexing with a remarkably robust technical platform, for instant access to exactly the right articles. ABI/INFORM delivers a huge base of content that matches today's curriculum; Smart Search delivers the articles that match today's lesson.

ProQuest® Smart Search Technology

Our content
leads to your
contentment.

We offer more premium full text, from highly regarded and peer-reviewed sources, than any other provider. Our collection represents some of the best publishers in the business world: Wiley, Kluwer, Oxford University Press, MCB, and more. We're used by more than 90% of the world's business schools, and we've enjoyed an enduring reputation as the leading business resource for more than 30 years. Today, ABI/INFORM is evolving in two ways—we continually add content, and we continually add features that let users pinpoint the most pertinent articles instantly. After all, thousands of articles don't mean a thing if it's too hard to reach the one (or three, or six, or 25) you need right now. Curriculum Match Factor, ProQuest Smart Search... signs of our commitment to meeting your needs.

To learn more about the ABI/INFORM suite of products, call your account representative at 800-521-0600 or 734-761-4700, ext. 3344. Or visit our website, www.il.proquest.com.
