

# ProQuest Career and Technical Education

## The definitive source for career and vocational information

Even before the recession hit, job seekers looked to their libraries for guidance and resources for navigating career transitions. Now that the economy has affected so many, more and more people are turning to their local libraries for online job searching advice and career information. **ProQuest Career and Technical Education** can be a very helpful resource for these patrons.

## A wide selection of resources

**ProQuest Career and Technical Education** includes over 650 titles, with nearly 550 available in full text. Job seekers can dive deep, not only with full-text magazines, journals, and trade publications, but with new e-books and blogs as well!

**ProQuest Career and Technical Education** is also an excellent source of vocational information for community colleges, two-year institutions, public libraries, and institutions offering technical training. Students, professionals, professors and counselors can access the database to research virtually any career, including computer science, health care, building trades, auto mechanics, sales and retail, accounting, graphic design, photography, and nursing.

## ProQuest Career and Technical Education features:

- High-quality, diverse, and career-oriented content updated daily.
- An easy-to-use interface that requires minimal training, while returning expert results.
- Cross-searchability with other ProQuest databases, such as ABI/INFORM®, for access to even more career information.

## A growing database

To support the increasing demand for career and job search information, we are adding a wealth of powerful new resources to **ProQuest Career and Technical Education**. **Over 30 new e-books** are being added, covering career-related topics such as industry outlook, working after retirement, surviving an economic slowdown, and more. To further support our users, we are also adding content from more than 35 blogs, on topics such as career management, entrepreneurship, and high-growth industries like green technologies.

## Coming soon in ProQuest Career and Technical Education:

- **More E-Books** — Titles such as *Communicating Effectively For Dummies* and *Cool Careers For Dummies*; plus, over 30 additional e-books, such as *Winning Strategies for First-Time Job Hunters* and *175 High-Impact Resumes*.
- **Blogs** — Popular blogs such as *The Monster Blog*, *Newly Corporate*, *Training Day*, and many more add fantastic value to this collection.
- **Trade publications** — Providing highly sought, occupation-focused titles such as: *Marketing Week*, *Aviation Week & Space Technology*, *Broadcasting & Cable*, *Nursing*, *Law & Order*, *Chemist & Druggist*, *Electronic Engineering Times*, and many more!
- **Full-text journals and magazines** — Delivering instant access to outstanding publications such as: *Marketing*, *Journal of Nursing Education*, *Physical Therapy*, *Logistics Today*, *Accounting Horizons*, and *Agricultural Research*.
