

Groundbreaking earth science research starts here

GeoScienceWorld—from the only nonprofit worldwide collaborative of earth science librarians, researchers, and publishers—features leading peer-reviewed journals from pre-eminent global publishers in a broad range of geosciences areas. It's available from ProQuest by subscription and to non-subscribers with pay-per-view article access and free searching and browsing of abstracts for most journals. Plus, GeoScienceWorld is fully interoperable and cross-searchable with GeoRef, the most comprehensive and authoritative Abstracting & Indexing database in the geosciences.

Groundbreaking earth science research starts here

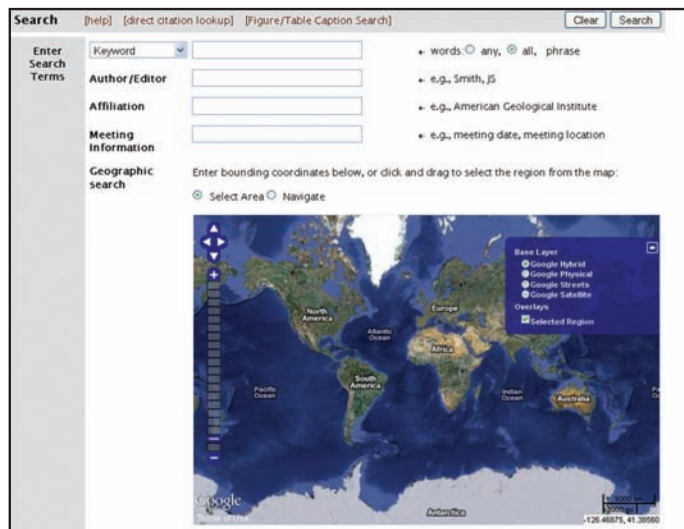

Added value for researchers.

From the intuitive HighWire Press H2O platform:

- Search and browse by topic plus latitude and longitude coordinates with new Google Maps-based tool
- Link to bibliographic citations and full-text articles seamlessly with OpenURL and CrossRef DOI functionality
- Access deep backfiles, including the Millennium Collection, updated on a current basis
- Cross search GeoRef subscription
- Stay up to date with content alerts
- Publish research online using the latest tools and technologies

Added value for librarians. GeoScienceWorld subscriptions from ProQuest are easy to manage with COUNTER compliant usage statistics and content interoperability from a growing list of publishers and journals. Plus, your subscription allows you to leverage the GeoScienceWorld branding on your institution's site.

More groundbreaking resources. A perfect complement to GeoScienceWorld is the ProQuest Earth Science Collection—with access to more full-text content, A & I, and results that include critical data in figures and tables via GeoRef, powered by the patented ProQuest Deep Indexing process on the all-new ProQuest platform. ProQuest Earth Science Collection is also part of the ProQuest SciTech Collection, our most comprehensive natural and applied science research resource.

Precision search capabilities include the ability to select and navigate geographic regions.

More than 40 high-impact journals from world-renowned publishers. Just a few examples include:

- Geological Society of America's *Geology*, *Geosphere*, *GSA Bulletins & Journals*, *Lithosphere*
- Paleontological Society's *Journal of Sedimentary Research*, *PALAIOS*, *SEPM Journals*
- American Association of Petroleum Geologists' *AAPG Bulletins*, *Environmental Geosciences*

... plus many more!
