

ProQuest Medical Library™

The leading medical titles—available at your fingertips

PROQUEST®

ProQuest Medical Library™ combines full text for more than 450 medical titles (selected journals are available in color) with MEDLINE® indexing. ■ With coverage dating from 1987 forward, ProQuest Medical Library provides academic, hospital, and corporate libraries with information on all major healthcare specialties, including pediatrics, neurology, pharmacology, cardiology, dentistry, obstetrics and gynecology, orthopedics, surgery, and more. It also includes all charts, diagrams, graphs, tables, photos, and other graphical elements essential in medical research.

Quick Searching, Accurate Results

A number of enhanced searching capabilities make it easy for both novice and expert searchers to find the information they want:

- “My Research Summary” records your marked articles, previous searches, and publications visited all in one, easy-to-find location. You can also email it or save it as a webpage
- Find something you like? The “More like this” option automatically displays related information in the same topic
- Powered by ProQuest® Smart Search, ProQuest Medical Library now displays

suggested topics at the top of the user’s search results to aid in directing or narrowing a search for quick, optimal results

- Citations are automatically formatted in your choice of citation styles: AMA, APA, Chicago/Turabian: Author-Date, Chicago/Turabian: Humanities, MLA, and ProQuest Standard
- Topics can be browsed by subject, publication title, person, company, and geographic location
- Drop-down fields menus let users search by publication and article type

- Common-sense, intuitive date-range options (including last seven days, last 30 days, last three months, on a particular date, and more) help users quickly select the exact date range they want
